Featured Artist – Yael Korin

Hidden Horizon

I am a self-taught fine art photographer, using my camera as an initial tool to create abstract impressionistic images.

While most of my work is inspired by the natural world, nature is not a subject that I attempt to represent.

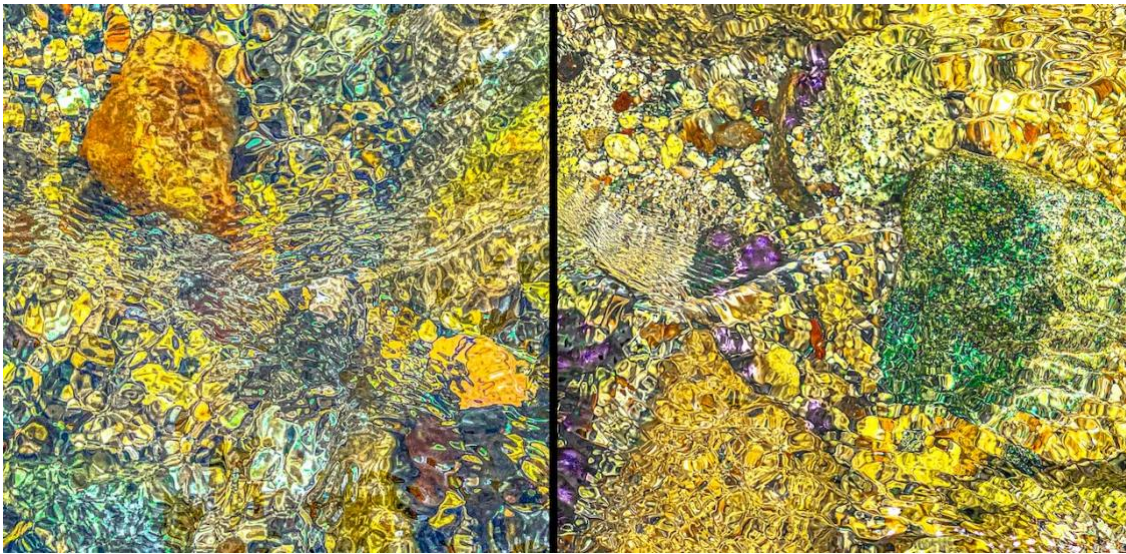

My process leads me to discover images not seen by most people. Shadows, light, reflections, and textures, are the elements with which I work.

I use techniques I have developed over the years, to achieve the images that are not depicting the subjects of my art, but rather expressing my experience and impressions of the surroundings that inspire my art, often pushing it to less explored and less conventional realms.

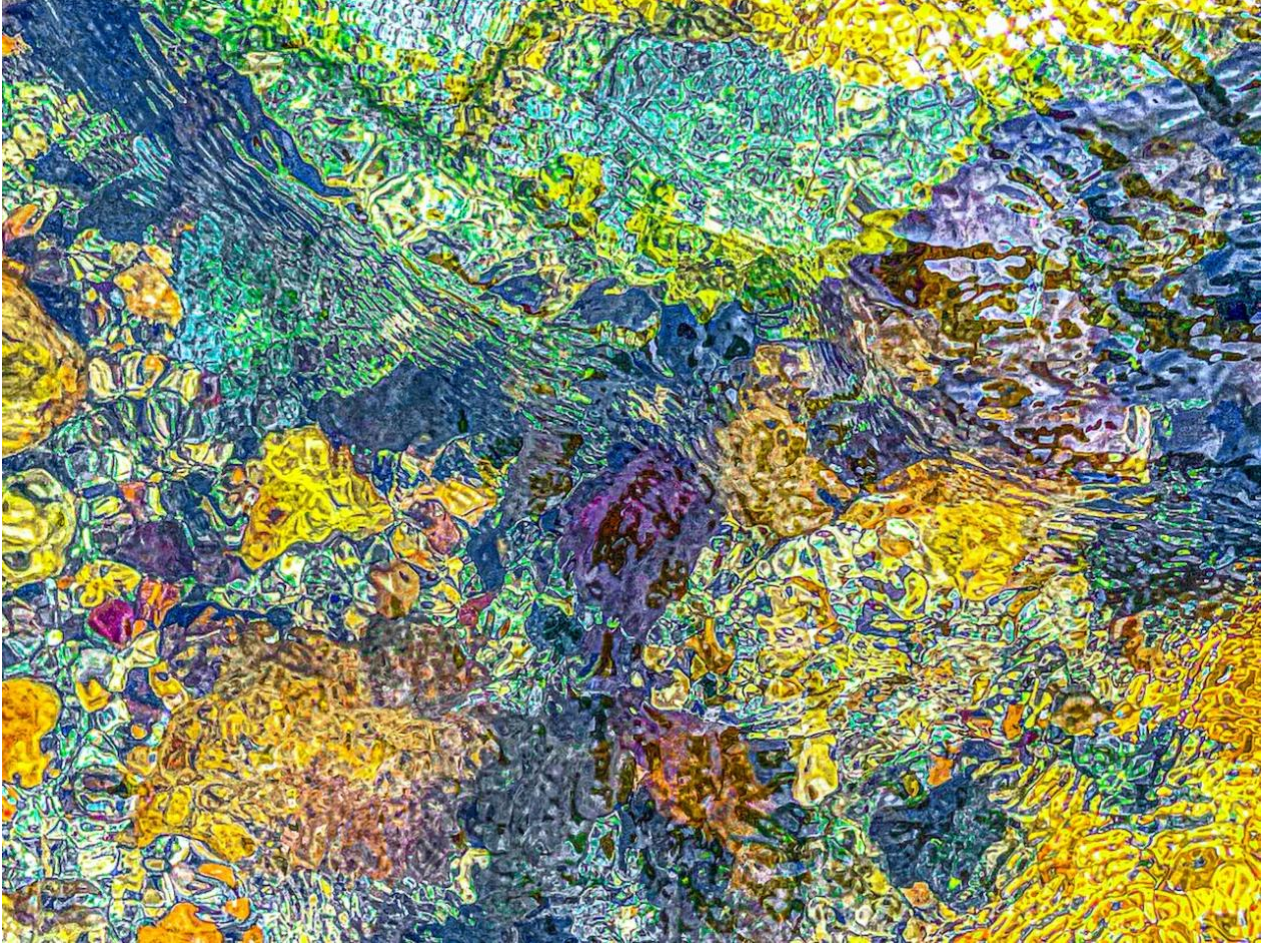

I attempt to share with the viewer my sense of an immediate, personal, subjective experience of the play of light, shadows, colors, and movements. However you experience my work, I hope you enjoy looking at it — after all, that's really what it's about.

Hearst Castle: Inside Edition

By Amber Rack

Central Coast Photographic Society

Meeting via Zoom

November 9, 2023 @ 7 p.m. PST

When COVID-19 shut down in-person tours at Hearst Castle - and then damage to the access road extended the closure - Amber found herself working in the monument's photography archives for a full two years. In that time, she made significant progress organizing the extensive collection of negatives, prints, slides, and digital photos; and she also generated a great deal of social media content. For this presentation, she's combed through hundreds of her own images to create an insider look at views, rooms, and objects visitors to the Castle rarely (or never) have an opportunity to see.

Photo by Amber Rack

Amber Rack was born in San Luis Obispo but raised in Washington State. She began practicing photography more than 30 years ago, in high school. After moving from Seattle to California at the end of 2015, Amber took the opportunity to use her photography skills with the State Parks: first at Calaveras Big Trees and then at Hearst Castle, where she found herself working in the photo & media archives while the monument was closed. Her images from Hearst Castle have been used in travel publications, scholarly articles, and for conservation purposes. She also contributed a great deal of content for Hearst Castle's social media on Facebook, Instagram, Twitter, and YouTube.

The White Lions & Other Cats of Southern Africa

A Photography Exhibit

On safari in southern Africa in July, 2019, Cheryl and Richard Strahl were privileged to see rare white lions in the Timbavati Game Reserve. They were told by their professional guides that only three white lions were known to exist in the wild – and they saw two of them, both cubs.

Their photography exhibit includes poignant and captivating images of the white lion cubs as well as other amazing wild cats sighted in both South Africa and Botswana: more lions, cheetahs and leopards.

Where: Spearhead Coffee 619 12th St., Paso Robles

When: November 1 – December 31, 2023

Photographers: *Cheryl & Richard Strahl*

Please stop in at Spearhead Coffee to see the results of the Strahl's memorable experiences of photographing those beautiful cats And also, to enjoy some amazing coffee!
